CASUAL SUMMER_

100% Technical RPET Fabric

The fabric used in the manufacturing process of these items is made of recycled plastic (RPET). Like this, the emission of plastic residues to our planet and the consumption of energy is drastically reduced, resulting in a much more eco-friendly process.

El material de estos productos está fabricado con plástico reciclado (RPET), que, además de ayudar en la disminución de residuos plásticos en el planeta, utiliza menos energía en el proceso de fabricación, haciendo que sea mucho menos dañino para el medio ambiente.

Rpet ZERO WASTE

The fabric used in the manufacturing process of these products is made of recycled plastic (RPET). Like this, the emission of plastic residues to our planet and the consumption of energy is drastically reduced, resulting in a much more eco-friendly process.

El material de estos productos está fabricado con plástico reciclado (RPET), que, además de ayudar en la disminución de residuos plásticos en el planeta, utiliza menos energía en el proceso de fabricación, haciendo que sea mucho menos dañino para el medio ambiente.

Accessories

From the origin of the material to the method of cultivation, harvesting, manufacturing process and delivery to the final recipient, there is a reason in the chain

La procedencia del material, el método de cultivo, la recolecta, procedimiento de fabricación y entrega a su destinatario final, tienen una repercusión en la cadena.

The Fairtrade Cotton label guarantees that the product comes from a traceable and sustainable sourcing chain and helps us to identify garments where 100% of the composition is traceable Fairtrade cotton. All of the cotton is Fairtrade certified, traded, audited and sourced from Fairtrade producers. Visit www.info.fairtrade.net

El sello Fairtrade Cotton nos garantiza que el producto proviene de una cadena de aprovisionamiento de compra trazable y sostenible y nos ayuda a identificar las prendas en las que el 100% de su composición es algodón Fairtrade trazable. Todo el algodón es certificado Fairtrade, comercializado, auditado y proviene de productos Fairtrade. Visite www.info.fairtrade.net

NATURAL HEMP

Did you know that hemp fibre has anti-bacterial properties, a very high resistance to mould and mildew and eliminates unpleasant odours? Due to its antimicrobial property, hemp is much stronger and durable than most natural textile fibres.

¿Sabías que la fibra de cáñamo posee propiedades anti-bacterianas, una muy alta resistencia al moho y elimina los malos olores? Debido a su propiedad antimicrobiana, el cáñamo es mucho más fuerte y duradero que la mayoría de las fibras textiles naturales.

Organic cotton, the cotton of our ancestors, grown using sustainable methods with low impact on the environment. The non-use of insecticides, fertilizers or other chemicals in the yarn and production processes results in a comfortable fabric, 100% plant-derived and hypoallergenic, in a natural weave that claims traditional agriculture.

Algodón orgánico, el algodón de nuestros ancestros, cultivado usando métodos sostenibles con impacto bajo para el medio ambiente. La no utilización de insecticidas, fertilizantes u otros productos químicos en el proceso de hilado y producción da como resultado un tejido cómodo, 100% derivado de plantas e hipoaergénico, de alta sostenibilidad en la cadena de suministro.

RECYCLED COTTON

Cotton waste from manufacturing processes, together with that from products that have reached the end of their lifespan, takes on a new life. A question arises: Does cotton recovery result in a quality fabric? The answer is YES, preserving natural resources and reducing the amount of waste generated. In addition, regenerated cotton keeps the properties of soft touch.

Los restos de algodón de los procesos de fabricación, junto con los de productos que han llegado al final de su vida útil, cobran una nueva vida. Surge una pregunta: ¿el resultado de la recuperación del algodón da como resultado un tejido de calidad? La respuesta es SÍ, conservando recursos naturales y reduciendo la cantidad de residuos generados. Además, el algodón regenerado mantiene las propiedades de suavidad al tacto.

RECYCLED COTTON

Cotton waste from manufacturing processes, together with that from products that have reached the end of their lifespan, takes on a new life. A question arises: Does cotton recovery result in a quality fabric? The answer is YES, preserving natural resources and reducing the amount of waste generated. In addition, regenerated cotton keeps the properties of soft touch.

Los restos de algodón de los procesos de fabricación, junto con los de productos que han llegado al final de su vida útil, cobran una nueva vida. Surge una pregunta: ¿el resultado de la recuperación del algodón da como resultado un tejido de calidad? La respuesta es Sí, conservando recursos naturales y reduciendo la cantidad de residuos generados. Además, el algodón regenerado mantiene las propiedades de suavidad al tacto.

HELP!

ZERO WASTE

The fabric used in the manufacturing process of these items is made of recycled plastic (RPET). Like this, the emission of plastic residues to our planet and the consumption of energy is drastically reduced, resulting in a much more eco-friendly process.

El material de estos productos está fabricado con plástico reciclado (RPET), que, además de ayudar en la disminución de residuos plásticos en el planeta, utiliza menos energía en el proceso de fabricación, haciendo que sea mucho menos dañino para el medio ambiente.

Organic cotton, the cotton of our ancestors, grown using sustainable methods with low impact on the environment. The non-use of insecticides, fertilizers or other chemicals in the yarn and production processes results in a comfortable fabric, 100% plant-derived and hypoallergenic, in a natural weave that claims traditional agriculture.

Algodón orgánico, el algodón de nuestros ancestros, cultivado usando métodos sostenibles con impacto bajo para el medio ambiente. La no utilización de insecticidas, fertilizantes u otros productos químicos en el proceso de hilado y producción da como resultado un tejido cómodo, 100% derivado de plantas e hipoalergénico, de alta sostenibilidad en la cadena de suministro.

RECYCLED COTTON

Cotton waste from manufacturing processes, together with that from products that have reached the end of their lifespan, takes on a new life. A question arises: Does cotton recovery result in a quality fabric? The answer is YES, preserving natural resources and reducing the amount of waste generated. In addition, regenerated cotton keeps the properties of soft touch.

Los restos de algodón de los procesos de fabricación, junto con los de productos que han llegado al final de su vida útil, cobran una nueva vida. Surge una pregunta: ¿el resultado de la recuperación del algodón da como resultado un tejido de calidad? La respuesta es SÍ, conservando recursos naturales y reduciendo la cantidad de residuos generados. Además, el algodón regenerado mantiene las propiedades de suavidad al tacto.

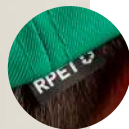

RPET

The fabric used in the manufacturing process of this cap is made of recycled plastic (RPET). Like this, the emission of plastic residues to our planet and the consumption of energy is drastically reduced, resulting in a much more eco-friendly process.

El material de esta gorra está fabricado con plástico reciclado (RPET), que, además de ayudar en la disminución de residuos plásticos en el planeta, utiliza menos energía en el proceso de fabricación, haciendo que sea mucho menos dañino para el medio ambiente.
